

VEHICLE TAX FUND

STATEMENT SHOWING
AMOUNT, LOCATION AND COST
OF
STREET REPAIRS AND IMPROVEMENTS
PAID OUT OF FUND PROVIDED BY
VEHICLE LICENSES

DECEMBER 31

1908

VEHICLE TAX FUND.

The ordinance passed by the City Council on February 3, 1908, now popularly known as the "Vehicle Tax," became effective on May 1, 1908.

From that date to the end of the year 1908 the receipts from the issuance of licenses aggregated \$440,057.36.

As prescribed by the terms of the ordinance this amount was kept in a separate fund and used only for paying the cost and expense of street or alley improvement and repair.

The City Council in the annual appropriation bill for 1908, set aside \$50,000 for asphalt street repairs. This amount was added to the receipts from Vehicle licenses, making the amount \$490,057.36 available for street repairs and improvement.

264.4 miles of streets were improved at an aggregate expense of \$482,611.68.

Of this amount \$477,021.42 was expended by the Bureau of Streets for superintendence, labor and material, and \$5,590.26 was expense incurred incidental to the operation of the ordinance, covering metal tags, etc., etc., leaving an available balance in the fund December 31, 1908, of \$7,445.68.

The total mileage of 264.4 comprised work on the following classes of pavements:

Macadam.....	91.05 miles.
Cedar.....	72.32 "
Asphalt.....	68.62 "
Brick.....	12.28 "
Granite.....	11.42 "
Unimproved.....	8.71 "
	<hr/>
	264.4 "

Macadam repairs were made by City laborers, using crushed stone purchased from the Bridewell at a figure below the open market.

Asphalt repairs were done by a contractor with whom the city has an annual contract for such work.

The balance of the repairs was done by city laborers at a conservative cost.

Many obstructions which are usual in the early operation of such a law, prevented the collection of all the taxes, regardless of the efforts put forth by the City officials to notify all that the law was in force.

The validity of the law has been tested nine times, and by two decisions in the Supreme Court, six in the Circuit Courts, and one in the U. S. Circuit Court, has been upheld in each case.

Notwithstanding these and other obstructions, much has been accomplished during the brief time the fund has been available.

The area and extent of the work done from funds the Vehicle Tax has provided may be seen by an examination of the following pages on which the names of the streets repaired and improved are given in detail together with the mileage covered by such repairs.
